Specializing in mural design, faux finishing, and more!

My name is Sarah Love and I'm a muralist living in northern Virginia. After studying Illustration and Design at Syracuse University I relocated to San Antonio, Texas where I created large-scale paintings for the convention business. I also worked for several theaters as a scenic artist to hone my skills and talent on a grand scale.

When life brought me to Virginia I continued painting commercially, but I also found a quiet market of individuals who wanted paintings, faux-finishing and original murals in their homes. This has become my passion! I love to work with clients to find that perfect look for their decor or that magical setting for a child's room where memories will be made to last a lifetime.
